

ENGINEERS IRELAND - CORK REGION WINTER LECTURE SERIES

The Design of the M50 Upgrade PPP Scheme - Improving Ireland's Busiest Motorway

About the event:

The M50 PPP Upgrade Scheme is one of the most complex and high profile road projects completed in Ireland in recent years.

The project involved the design and construction of 23km of motorway widening. The project also required the upgrading works of seven interchanges, including conversion of the M1, N2 and N3 Interchanges to full or partial free-flow junctions.

Construction of the project commenced in February 2008. The scheme opened on 1st September 2010 two months ahead of schedule.

Event details:

Date: Tuesday 5th April 2011

Time: 20:00

Venue: Rochestown Park Hotel, Cork
