Wärtsilä, Marine Equipment Leader, from Bow to Propeller

Date: Thursday 31st January 2019
Time: 1930hrs (Tea & Coffee served from 19.15hrs)
Venue: Rochestown Park Hotel, Co Cork

Wärtsilä is a very large international manufacturer and supplier of marine equipment “from bow to propeller” with its Headquarters in Finland. Wärtsilä have a very strong involvement with cruise ships, super-yachts, cargo ships, naval ships and special vessels.

The presentation should cover an overview of various types of engines, propulsion, automation, navigation and some other issues.

This presentation will be attended by a number of Wärtsilä representative who have vast experience in the manufacturing and supply area.

This talk is a great opportunity for not only maritime professionals but for facility managers and operators who rely on emergency backup generators, to gain an insight into one of the industry leaders.

Tonight’s talk is being facilitated by Martek an Irish Company who are Wärtsilä’s representatives in Ireland (and some overseas countries) for certain sections of equipment.
