Evening Lecture

Sterile Technology in API Manufacturing - Janssen P3

**Speakers: Michael Law, Project Management Group
John Kelly, Janssen Pharmaceutical Ltd.**

In 2007 Janssen Pharmaceutical Ltd. completed their new P3 production building. One of the key features of this state-of-the-art facility is a module designed specifically for the aseptic processing of active pharmaceutical ingredients. In this presentation, John Kelly of JPL and Michael Law of PM will give an overview of this aspect of the project and the technologies involved, including design, equipment selection, construction and commissioning.

Date: Tuesday 5th February 2008 @ 8.00pm.
Venue: Rochestown Park Hotel, Cork

All are Welcome

Contact: Rónan Duggan (ronan.duggan@pmg.ie) or John O'Shea (john.oshea@cit.ie) if you require further information
