APS and RPS invite you to join us at the Guinness Storehouse for an important Safety Seminar covering Construction Issues Relevant to Today's Market. As a sponsored event we are able to offer a first class CPD Event at an affordable cost in these troubled times which will provide essential information and best practice to assist you in your work.

Although these days Refurbishment and Extensions of premises are more common place rather than new build falling from height still remains the biggest cause of death and injury in the Ireland

The role and responsibility of designers and the PSDP regarding temporary works, design & co-ordination will all be addressed in the program. It is important to consider the issues involved and ensure they are properly managed. The PSCS / Main Contractors and clients need to ensure sub-contractors and smaller contractors have appropriate procedures in place to manage safety & health at site level.

Recently published Codes of Practice will be addressed together with an update on new and possible future legislation.

Given the variety of topics and presenters in a full afternoon ahead, this seminar will be of interest to all involved in the construction process including Clients, Designers, Project Supervisors Design Process, Project Supervisors Construction Stage, Main Contractors and Contractors.
