Energy and Environment Division

Bord na Móna – The Road to 2030

Date: 2nd December 2015

Time: 1830

Venue: Engineers Ireland, 22 Clyde Road, Ballsbridge, Dublin 4

Topic:

This presentation will outline the significant changes occurring in the energy sector in Ireland, particularly in relation to the need to decarbonise our economy, and how these changes are impacting Bord na Móna. It will outline the diversification strategy the company has been pursuing over the last decade in response to changing circumstances and how it sees that ongoing transition proceeding over the period to 2030.

About the Speaker

Dr. John Reilly Head of PowerGen Development, Bord na Móna

John is a member of Bord na Mona’s Senior Executive team with specific responsibility for the PowerGen Business Unit, which has both thermal and renewable generating assets in its portfolio. He is responsible for strategy and the development programme underpinning Bord na Mona’s expansion activities in the electricity market. John has over 15 years experience in the energy sector and was previously part of the Senior Management team at Edenderry Power prior to its acquisition by Bord na Mona Energy from the major German utility player EON. He has also previously worked for Fortum, the Finnish Utility.

John is currently a member of Eurelectric’s Environment & Sustainable Development Policy committee and the Irish Business & Employers Confederation (IBEC’s) Energy Policy Executive, where he previously chaired the Climate Change Working Group. He is also on the Board of the Electricity Association of Ireland (EAI) and the Electricity Research Center (UCD).
