

Engineers Ireland (Cork Region) Career Development Section presents:

Cork on the Up? *Designing for the Future*

We are currently witnessing unprecedented development on Cork's skyline, with flagship residential and commercial projects on the horizon. But what does this mean for the city itself? How will the new developments integrate into the fabric of Cork, and what are the likely implications of this growth phase on the city's future? To discuss this, we have key figures who have been heavily involved in creating this vision.

Speakers: *Frank O'Mahony*, Principal Architect, Wilson Architecture
Dan Boyle, TD for Cork South Central, Green Party

Date/Time: 6.00pm sharp, Monday 26 March 2007. *Refreshments on arrival*

Venue: Lifetime Lab (old city waterworks across from County Hall)
Lee Road, Cork [on-street parking available]

There is no charge to attend this event and non-members are also welcome. To make your reservation, please email cdscork@gmail.com or conor.mooney@coillte.ie, incorporating your name and contact details. For further information, contact Conor Mooney on 087-9102125.
