Project Management  
(Lecture 2 of 4)  
Project Risk Management Control & Communications  
Keeping Stakeholders Engaged and Informed and Projects On-Track

Date: Monday 10\textsuperscript{th} October 2016  
Time: 19:00 (Tea/Coffee from 18:30)  
Venue: Rochestown Park Hotel, Cork  
Speaker: April Mangan Chartered Engineer and RPS Project Communications Lead Munster & Dan O'Boyle, Associate RPS Project Communications

Synopsis:  
The presentation will focus on the importance of considering communications in the management of a project. Lack of effective communication is a risk that Project Managers should be aware of and take steps to avoid. The presentation will describe the key steps involved in developing an effective Communications Strategy to ensure that communications are considered at all stages of project development in a planned, agreed and proactive way, building trust in the project team from the start of the project to its completion.

Speaker Bio:  
April has over 20 years of communications and engineering experience in water, energy and construction sectors both nationally and abroad, with a particular focus on the development of major infrastructure projects. April’s combination of technical understanding and communication skills is highly effective in creating understanding in a project’s varied audiences. Dan has 15 years of experience in advising public and private sector clients on best practice stakeholder engagement and has delivered many effective media relations and public affairs programmes for major infrastructural projects. He currently designs and implements strategic communications programmes for energy, transport, water, and wastewater projects at all stages of development.
Project Management Essentials

Date:       Tuesday 4th October  
            Monday 10th October
