

Wind Power for medium sized industry

EVENING LECTURE

**Joint Event
Energy and Environment Division and Cork Region**

Date: Tuesday 16th November 2010

Time: 20:00

Venue: Rochestown Park Hotel

Speaker: Dominic Costello, Wind Energy Direct

DESCRIPTION

The presentation will cover the benefits of wind Auto Production for large energy users. It will look at the criteria for identifying an ideal site and the process of implementing an on-site wind project from feasibility to commissioning. It will look at the Munster Joinery wind auto-production project which was implemented by Wind Energy Direct under an Energy Services Company (ESCO) model. The presentation will cover the construction stage and review how the project has performed to date.

SPEAKER PROFILE

Dominic Costello is an Electronics Engineer and Managing Director of Wind Energy Direct. Wind Energy Direct specializes in installing wind turbines on the sites of large energy users for on-site consumption via a build, own and operate model. Formerly the Managing Director of ITS, Dominic also holds an MBA from the University of Limerick.
