Cork Courthouse Refurbishment and Extension Site Visit

Date: Saturday, 21 October 2017
Time: From 10:45 AM
Venue: BAM Site Offices, old Brooks Haughton Building, Copley Street, Cork City

About the event

Engineers Ireland Cork is delighted to announce a site visit to Cork Courthouse Project on Anglesea Street, which is set to be complete by the end of the year. This is a great opportunity to observe the Courthouse under construction and to learn about the use of innovation techniques in delivering this significant project in Cork City.

Cork Courthouse Project involves the refurbishment and extension of the existing courthouse building to accommodate six courtrooms, improved custody facilities, court offices, the regional office, and associated facilities. This includes a 19th century red brick building which once housed the City’s Model School.

BAM were appointed to deliver the Courts Bundle PPP Project which forms part of the Government's €2½ bn Infrastructure Stimulus Package in July 2012.

The Courts Bundle PPP Project comprises the development of new courthouse buildings in Drogheda, Letterkenny, Limerick and Wexford and also the refurbishment and extension works to existing courthouses in Cork, Mullingar and Waterford. These priority projects, as identified by the Courts Service, will help to deliver improvements leading to reduced waiting times and reduced costs of litigation.

Admission

Admission is free but with places limited, advance booking is required and places will be allocated on a first come, first served basis. (see website for details)

Important:

PPE is required for this visit and parking is not available on site. Attendees must provide their own PPE (hard hat, hi-viz, steel toe cap boots, gloves and safety glasses) which must be worn at all times while on site. PPE will not be provided and entry will not be permitted without PPE.
