

CELEBRATING  
**175** YEARS  
1835-2010

## **Cork Region - Evening Lecture**

# **Castletownbere Fishery Harbour Development - Aspects of the design**

**Speakers:**        **Simon Brewitt BA,BAI, C.Eng. FIEI, MIStructE  
Director,  
Mott MacDonald Ireland**

**Robert Dunsire BSc (Hons) C. Eng. M.I.C.E.  
Director of Operations  
Jacobs Engineering UK Ltd**

Development plans for Castletownbere Harbour, one of Ireland's major fishing ports, include the construction of 200 metres of new quayworks dredged to a depth of -10mOD.

The paper describes the planning and development of the project and some of the issues that arose during the design and construction - for example the assessment of the contaminated silts and their subsequent removal and treatment and the design basis of the two new quays for the development.

**Date:**            **Tuesday 16<sup>th</sup> February 2010 @ 8.00pm.**  
**Venue:**        **Rochestown Park Hotel, Cork**

**All are Welcome**
