

ENGINEERS IRELAND - CORK REGION WINTER LECTURE SERIES

ESB International - Irish Engineers Overseas

About the event:

ESB International (ESBI) is a wholly owned subsidiary company of ESB Group. It provides engineering services to a number of power industry customers in Ireland and overseas. During the presentation, a number of the overseas projects recently undertaken by ESBI will be discussed with an emphasis placed on the value of these projects to the development of the engineering capability within the ESBI business. In addition, the talk will highlight the benefits of overseas experience to the individual engineers and the contribution it makes to their professional development.

Event details:

Date: Tuesday 29th November 2011

Time: 6.30pm Tea & Coffee served, Lecture at 7.00pm

Venue: Rochestown Park Hotel, Cork
