INTRODUCTION
The Hydraulics and Maritime Research Centre of University College Cork have organised a seminar that will address the challenges facing engineers/managers/economists in the economic evaluation and feasibility assessment of offshore ocean and marine renewables. This seminar will contain 15 presentations that will deal with the economics of:

- Wave/tidal technologies as well as
- Offshore wind.

Additionally, the seminar addresses the economics of ancillary factors necessary for deployment success:

- Grid integration,
- Storage and
- Interconnection.

SEMINAR OBJECTIVE
There has been much research and discussion on the technical difficulties facing offshore renewable technologies. However, the consideration of the economics of the technology has been much neglected to date. Economic evaluation of projects should be assessed in conjunction with the technical research as each is equally important for final success of a project.

This forum is the first event of its kind gathering together all academics and researchers in the field of offshore renewable economics. It will provide an invaluable platform to find out what is the latest economic research in this new and expanding field, and provide crucial networking environment for meeting colleagues in offshore energy.

The exciting list of presenters is drawn from all fields of research:

- 7 academic universities
- 5 engineering companies
- 7 academic universities
- 5 engineering companies

WHO SHOULD ATTEND?
- Device developers
- Utilities
- Government departments
- Consulting and Contracting Engineers
- Accountancy firms
- Academic institutions

SEMINAR BOOKINGS AND COST
Places are limited to 85 and will be allocated on a first-come basis, pre-booking is essential using the registration form provided, by online registration provided by the link below or by direct communication to the contact details provided below.

The cost of attendance at the seminar is free. Refreshments and a warm lunch will be provided. See Entertainment below for events organised before and after the forum.

Special accommodation rates have been arranged at the Lanchester Lodge http://www.lancasterlodge.com
Other recommended accommodation listed at: http://www.ucc.ie/en/conferencing/accommodation/

ENTERTAINMENT
Tuesday evening 8pm
Open reception ceremony held at Aula Max, North wing UCC. All welcome (see map overleaf)

Wednesday evening 8pm

REGISTRATION
There are two ways to register:

1. Online registration via the following link address: http://hmrc.ucc.ie/form.html
2. Complete the registration form below and email to hmrc@ucc.ie

SEMINAR PROGRAMME

8:30-9.00am REGISTRATION

9:10 Opening Address; Tony Lewis, Director of HMRC

SESSION 1:

Session Chair: Mr Gordon Dalton, HMRC

09:30 Coupling Large Scale Coastal Hydro Storage with Wind in Ireland
   Dr. Greg Swindon – Indecon UK

09:45 The Macro-Economics of Marine Renewables
   Dr. Karyn Morrissey, - SEMRU, NUIG

10:00 The economics of tidal energy
   Dr. Eleanor Denny – TCD Economics Dept

10:15 Economics of large-scale wave device arrays
   Dr. Tim Stallard - Manchester University

10:30 Tea/Coffee

SESSION 2:

Session Chair:

10:45 The Irish REFIT scheme and offshore wind
   Dr. Laura Malaguzzi Valerie - ESRI

11:00 Funding and job creation in British offshore renewable industry

SESSION 3:

Session Chair

13:00 Economics opportunities of the offshore wind
   Garrett Connell – Oriel Wind

13:15 Topic to be forwarded
   Dr. Gareth Harrison – Edinburgh University

13:30 Economics of marine energy in Scotland and the UK
   Dr. Michelle Gilmartin – Strathclyde University

13:45 Economic model of GB and SEM offshore wind markets
   Dr. Oliver Pearce – Pöyry Energy Consulting

14:00 Pumped storage economics for offshore wind
   Batsaikhan Nyamdash – ERC TCD

14:15 Tea/coffee

SESSION 4:

Dr. Oliver Wragg, BWEA

11:15 Economical considerations of the WETS Belfast cable
   Julie Ascoop – Arup Consulting Engineers

11:30 Economics benefits of a collaborative network for Marine renewables
   Dr. Paul Brewter - PureMarine

11:45 The pursuit of economic ocean energy: A utility perspective
   Dr. John Fitzgerald – ESBI

12:00 LUNCH

SESSION 5: Workshop breakout groups

15:30 Breakout groups A, B, C, D

16:30 Discussion

17:00 – 18:00 Close followed by Tea/Coffee/ Wine
