Engineers Week is a week-long programme of nationwide events with the aim of celebrating the world of engineering in Ireland. The aim of the week is to create a positive awareness and spark enthusiasm about the engineering profession among teachers, students, parents and the general public across the country. Engineers Week celebrates the engineering profession, grows awareness of engineers in the community, and showcases engineering as an exciting and diverse career option for students. The week is coordinated on a national basis by Engineers Ireland as part of the STEPS programme.

Engineers Week 2013 ‘Bringing Dreams to Life’ is taking place from the 25\textsuperscript{th} February to the 3\textsuperscript{rd} March 2013. Ideas to get involved include:

- Host an event in your organisation
- Volunteer at an Engineers Week event
- Volunteer to visit a local school

However you choose to get involved, all activities – whether large-scale or small – make a valuable contribution to the nationwide campaign.

If you would like to get involved in Engineers Week 2013, an Information Evening will be held at the Lifetime Lab, Old Waterworks, Lee Road, Cork on Thursday 24\textsuperscript{th} January 2013 at 6pm. An Engineers Ireland STEPS representative will be available on the evening to provide help and support. Come along to find out how to get involved and:

- get tips on organising an event or visiting a school
- see what free resources are available to support your efforts
- meet your industry colleagues and brainstorm ideas
