

The Institution of Civil Engineers REPUBLIC OF IRELAND REGION

In association with

Engineers Ireland, Local Government Division

LECTURE NOTICE

Sustainable Drainage Systems Regional Policy Documents

Speakers:

Mr. Don McEntee, Dublin City Council.

Mr. Brian Hennelly, Dublin City Council

The Greater Dublin Strategic Drainage Study was completed in 2005. This study provides the blueprint to facilitate sustainable development in the region to 2031 and beyond. To ensure that the drainage facilities can cope with the projected development the study produced recommendations on the best practice for drainage in the areas of:

- New Development
- Environmental Management
- Inflow / Infiltration and Ex-filtration
- Climate Change
- Basement Protection

The two papers will deal with the Policies in general and Sustainable Drainage Systems (SuDS) in more detail.

Venue: Rochestown Park Hotel, Cork.

Date: Tuesday 6th February 2007 @ 8.00pm
