## Lean Construction: Cost Avoidance and Margin Increase

**Thursday 4<sup>th</sup> July 2019 – Registration 17.45 to 18.15 – Free Admission**  
**Rochestown Park Hotel, Rochestown Rd, Douglas, Cork**  
 In association with DPS, SISK & Ardmac

17.45-18.15 Registration-Networking-Refreshments

18.15-18.30 Opening & Welcome, **Dr. Joe Harrington, CIT/Aidan Mangan, CIF**

18.30-19.15 **Easier, Better, Faster, and Fun – Applied Lean Construction**  
**Felipe Engineer-Manriquez**, McCarthy Building Companies, USA  
*Making Lean Construction Principles a Habit with Scrum is for anyone looking to improve output while increasing customer value for clients and other project partners. Applications often more than double individual and team productivity with less effort while invigorating engagement. Examples and resources will be provided to support event participants to get started, increase margins, and become more valuable construction partners.*

19.15-19.30 Q&A, **Cian Roche, SISK, Jason Collins, CIT**

19.30-20.30 **Villego® Last Planner Training** Hands on practical group training with qualified trainers  
**Maria Ryan**, Crystal Lean Solutions  
*Delivering Projects On-Time, On Budget - Application of the Last Planner® System (LPS). The LPS focuses on the creation of predictable and reliable workflow in construction planning and execution. Through the application of the Villego® Lego simulation, this action based workshop highlights key elements of the LPS. It will focus on the management of removing constraints to deliver a project on time, with improved quality, and delivering your margin.*

20.30-20.35 Conclusions and Next Steps, **Jason Casey, LCI**

20.35 - Networking, Stands, *LCI, IDA, EI, LEOs, CAMMS, LCI* commended  
 Lean Services Providers including Crystal Lean Solutions.
