Cork Engineers Achieve Highest Standard in the Profession

President of Engineers Ireland delivers address to the Cork region and awards title of Chartered Engineer

Monday 16th March: On Wednesday 25th March Regina Moran, Chartered Engineer, President of Engineers Ireland will deliver her presidential address to engineers in the Cork region. In her address she will speak about new opportunities being created in the engineering profession as a result of the increasing convergence between the physical and digital world and reflect on her presidential year.

Regina Moran, who started her career as an electronics technician in Cork, is now CEO of Fujitsu Ireland. During her year as President, which commenced in June 2014, she has placed emphasis on improving the profile and number of women in engineering.

The presidential address will be preceded by a conferring ceremony at which approximately 50 local engineers will be awarded registered titles of the institution, including the title of Chartered Engineer (CEng). Prizes will also be awarded to the highest achieving engineering graduates of all disciplines from the classes of 2014 in CIT and UCC.

This celebration of achievement is the highlight of the 2014/2015 calendar for the Engineers Ireland Cork Region which has included an extensive series of talks, site visits, a seminar and a gala dinner for both engineers and members of the public.

Attendance at the event, which will commence at 8pm in the Rochestown Park Hotel, is free and open to the members of the public. The Chairman of the Cork Region, Aidan Cronin Chartered Engineer, will host a reception following the event for award recipients, their families and guests.

Editor’s Notes:

Engineers Ireland is one of the largest representative bodies on the island of Ireland, with almost 24,000 engineers. The membership incorporates all disciplines of the engineering profession in Ireland across industry, the public service, semi-state organisations and academic institutions.

For details of Engineers Ireland Cork Region activities see www.engineersirelandcork.ie

Chartered Engineers have been assessed by their peers as professionals in their field in delivering the highest standards of quality, expertise and innovation to serve the needs of society while ensuring public health and safety. They adhere to the Engineers Ireland code of ethics in all areas of their engineering practice. The registered professional title is internationally recognised and under Irish Law certain engineering work is reserved for Chartered Engineers.

Engineers being conferred represent a wide range of engineering disciplines, as indicated by the range of companies and organisations with whom they are employed. These include: Cork, Clare and Kerry County Councils, Cork City Council, RPS, BMD, Arup, PM, The Naval Service, DePuy Synthes, Byrne Looby Partners, Bord Gáis Éireann, Liebherr Container Cranes Ltd. and Evolusion Innovation.
