Risk Management
Asbestos & Legionella

Date: Tuesday 11th November 2014
Time: 19:00 (Tea/Coffee from 18:30)
Venue: Rochestown Park Hotel, Cork
Speakers: Paul Enright and Liam Broderick, HBE Risk Management

Synopsis:

New Asbestos legislation published by the HSA combined with the ongoing focus on Legionella control make a working knowledge of these risk elements, mandatory for all building and facilities managers.

Liam Broderick, Lead Asbestos Consultant, will highlight the dangers of Asbestos and show you where it is commonly found. He will also cover your responsibilities regarding Asbestos as employers and contractors, under the new guidelines.

Paul Enright, a Legionella Consultant at HBE, will discuss where legionella is found and common dangers hidden within building water systems. He will also cover the duties of the responsible person and employers under legislation.

This seminar is an essential introduction to Asbestos and Legionella management. It will highlight your duties under current legislation and give you practical examples and information about the management of both Legionella and Asbestos.

Speaker Bios:

Liam Broderick is a Senior Asbestos Surveyor at HBE. Liam has over 15 years experience in the construction sectors and in the management of Asbestos across a wide range of sectors such as Education, Healthcare, Councils, Housing Associations, Commercial and Industrial.

Paul Enright is a highly experienced Legionella Consultant and Contract Manager in HBE. Paul manages the Regional office in Ennis and has over 5 years experience in the control of Legionella in buildings across industrial, education and healthcare sectors.
